

Regional Marine Pollution Emergency, Information and Training Center - Caribe

LT Matthew Martin, US Coast Guard

IMO Consultant

RAC-REMPEITC - Caribe

What Do We Do

Mission:

To assist countries of the Wider Caribbean Region to develop sustainable national and regional capabilities for implementing international standards to prevent, prepare and respond to threats to the marine environment from shipping.

- Oil Pollution Preparedness & Response
 - Implementation of OPRC & HNS
 - OPRC Regional Plan
- MARPOL
- Ballast Water Management & AFS

Oil Spill Preparedness

- NCP Template
 - Readiness Evaluation Tool for Oil Spills (RETOS™) adoption
 - Regional risk assessments
- Collaboration for Oil Satellite Tracking in the Americas (COSTA) Program
- Real-world oil spill incident coordination

MARINE POLLUTION SURVEILLANCE REPORT
 Ministry of Energy and Energy Industries
 Analysis by: Trinidad and Tobago Oil Spill Monitoring Group

REPORT DATE/TIME: 30/10/2021 1935 (UTC)
 DATA SOURCE: SENTINEL2B
 MODE: Multispectral
 RESOLUTION: 10 meter
 IMAGE DATE/TIME: 10/30/2021 1437 (UTC)

■ Possible Oil
▨ Possible Thicker Oil
+ Suspected Point Source: [10°18'56" N/60°42'32" W]

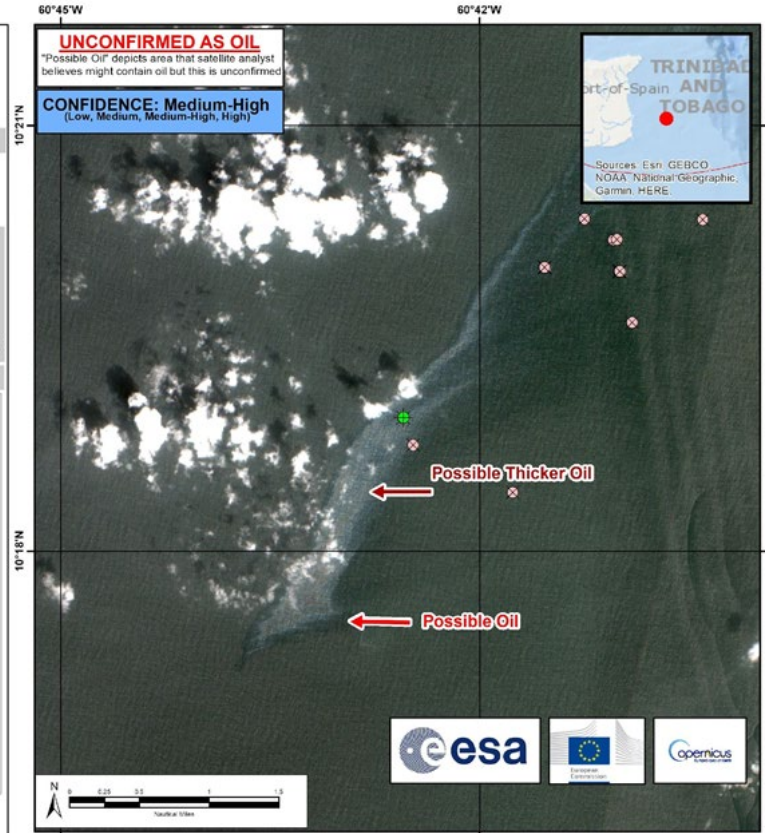

3.65 km² Total Area of Possible Oil

AREA/BLOCK: Teak Samaan Poui 113

REMARKS: Possible oil was observed in satellite imagery. This anomaly is unconfirmed as oil. The anomaly seemed to be mainly thick oil with small areas of regular oil at the edges. The thick oil was approximately 3.90 NM long and 0.33 NM at its widest. The regular oil was approximately 4.18 NM long and 0.42 NM at its widest. The anomaly was approximately 15.70 NM east of Point Radix, and ran in a north easterly direction. The wind at the time of the observation was approximately 7 knots from the east north east.

UNCERTAINTIES: The suspected point source may have been one of the nearby facilities, however this was difficult to confirm.

Neither the Government of Trinidad and Tobago, nor its employees, make any warranty nor assume liability or responsibility for the accuracy or completeness of this product.

Recent Activities

- National OPRC II Training – Port of Spain, Trinidad & Tobago
